

Exam9：循环遍历以proc目录开始的文件

编写shell脚本如下：

```
#!/bin/bash

for file in /proc/*;

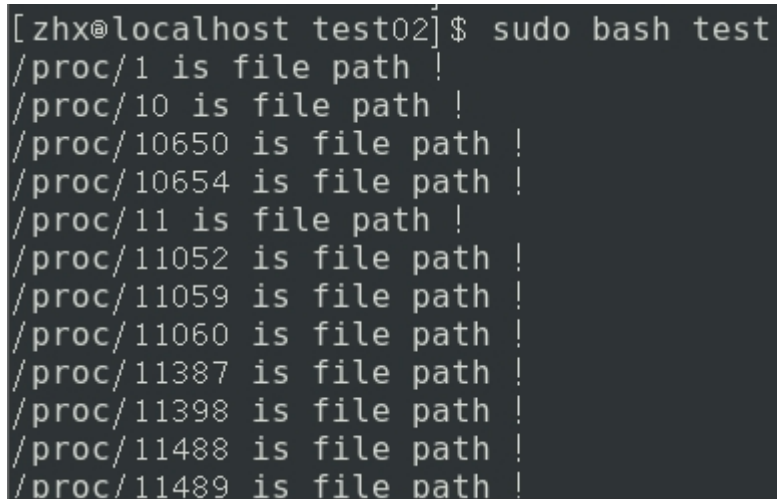

do

    echo $file is file path \!;

done

#end
```

运行结果如下：

```
[zhx@localhost test02]$ sudo bash test
/proc/1 is file path !
/proc/10 is file path !
/proc/10650 is file path !
/proc/10654 is file path !
/proc/11 is file path !
/proc/11052 is file path !
/proc/11059 is file path !
/proc/11060 is file path !
/proc/11387 is file path !
/proc/11398 is file path !
/proc/11488 is file path !
/proc/11489 is file path !
```
